

Remarks/Arguments

The Examiner has restricted the claims to:

Group I: Claims 1-20 directed to an enclosure apparatus;

Group II: Claim 21 directed to a method of securing a location monitoring device to a live animal;

Group III: Claims 22-23 directed to a method of accessing an internal portion of an enclosure.

The Applicant has elected to proceed with the claims of Group I, and this election is made with traverse with respect to the claims of Groups II and III.

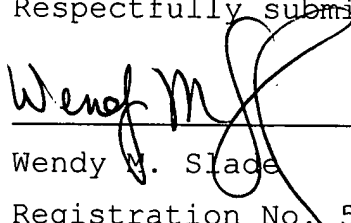

This election was made with traverse with respect to the claims of Groups II and III. It is respectfully submitted that the claims of Groups II and III should be considered with the claims of Group I as the search conducted by the Examiner with regard to the claims of Group I would include the art relevant to the claims of Groups II and III as well. Likewise the inclusion of the claims of Groups I, II and III would not place an undo burden on the Examiner.
